**PRODUCT RANGE**

**Are you making environmentally responsible choices?  
Jasol can help you with GECA Certified product range!**

# are you looking for a sustainable future?

Jasol is proud to introduce the new Environmental Choice (EC) range of highly effective, yet environmentally responsible, cleaning and sanitising products.

These products are:

- made almost entirely from renewable plant resources rather than oil-based ingredients;
- readily biodegradable;
- high performance, yet cost effective;
- certified by GECA (Good Environmental Choice Australia), the premier mark of environmental performance for products and services in Australia.

This innovative and comprehensive range is the environmentally responsible choice for your cleaning needs.

## about Jasol

Established over 75 years ago and backed by strong quality and environmental credentials, Jasol is a trusted market leader in the manufacture and supply of high-quality cleaning and hygiene solutions that can cater for almost every need. Whether you're in food manufacturing facilities, supermarkets, industrial applications, kitchens, washrooms or laundries, Jasol has your cleaning and hygiene needs covered.

## our products

Jasol is well-known for offering a comprehensive range of high-quality cleaning and sanitising products that are the ideal solution for your hygiene needs. The Jasol product range is innovative but simple, meaning it is easy to understand and use, while producing the best results possible.

All Products in the EC range  
are GECA certified

## ECO

### Manual Dishwashing Detergent

3x5L 2002040  
15L 2002043  
110L 2002045

ECO is an environmentally responsible and highly effective manual dish washing detergent that cuts through the toughest of grease and food soils in both soft and hard water. ECO is made from renewable plant resources rather than oil-based ingredients, is readily biodegradable and is an environmentally responsible choice for all your cleaning needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC1

### Cleaner Sanitiser

3x5L 2044290

EC1 is an environmentally responsible and very convenient all in one cleaner and sanitiser that is highly effective in both soft and hard water. EC1 is made from renewable plant resources rather than oil-based ingredients, is readily biodegradable and is an environmentally responsible choice for your cleaning and sanitising needs. EC1 is also fragrance-free, making it an ideal product for use in food preparation and processing areas. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC2

### No Rinse Sanitiser

3x5L 2044300

EC2 is an environmentally responsible and highly effective no rinse sanitiser. EC2 is chlorine free and fragrance-free making it the perfect high-performance sanitiser for all food contact surfaces and equipment. EC2 is readily biodegradable and is an environmentally responsible choice for your sanitising needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC3

### Floor Cleaner Degreaser

3x5L 2035460  
15L 2035464  
110L 2035466  
1000L 2035462

EC3 is a heavy duty environmentally responsible floor cleaner and degreaser that is ideal for removing the toughest fat, oil and grease soils, even in hard or soft water conditions. EC3 is non-flammable, phosphate free, made from renewable plant resources rather than oil-based ingredients, is readily biodegradable and is an environmentally responsible choice for your cleaning needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC4

### Glass Cleaner

3x5L 2035470

EC4 is an environmentally responsible and superior strength window, glass and chrome cleaner that leaves surfaces with a sparkling streak free shine. EC4 utilises an ammonia-free formula that is made from renewable plant resources rather than oil-based ingredients, is readily biodegradable and is an environmentally responsible choice for your cleaning needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC6

### Antibacterial Foaming Hand Soap

6x1L BW 2073851

EC6 is a new generation foaming antibacterial hand soap that is Fragrance free and Triclosan free for use in food processing areas. It contains biocides and does not leave any residue thanks to its free rinsing properties.

# EC PRODUCT RANGE

## EC9 Cleaner Sanitiser

3x5L 2044310

EC9 is an environmentally responsible and convenient all in one cleaner, deodoriser and sanitiser. With its powerful sanitising properties and long-lasting citrus lime fragrance, EC9 is ideal for cleaning hard surfaces and leaving behind a clean fresh smell. EC9 is made from renewable plant resources rather than oil-based ingredients, is readily biodegradable and is an environmentally responsible choice for your cleaning needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC11 Toilet Bowl Cleaner

3x5L 2021650

EC11 is an environmentally responsible and convenient dual action toilet bowl cleaner and deodoriser. With its powerful cleaning properties, it is perfect for removing soil, scale, rust and uric acid from your toilet bowl while leaving behind a pleasant citrus fragrance. EC11 is readily biodegradable and is an environmentally responsible choice for all toilet hygiene and cleaning needs.

## EC13 Automatic Feed Warewashing Detergent

3x5L 2002050  
15L 2002054  
110L 2002055

EC13 is an environmentally responsible and superior strength automatic dishwashing machine liquid. With its low foaming, rinse free formula EC13 cuts through the toughest soils in all water conditions, leaving your crockery and cutlery sparkling clean. EC13 is made from renewable plant resources rather than oil-based ingredients, is readily biodegradable and is an environmentally responsible choice for your cleaning needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC14 Automatic Feed Warewashing Rinse Aid

3x5L 2002070  
110L 2002075

EC14 is an environmentally responsible, highly effective rinse additive for use in automatic dishwashers. It promotes free rinsing, sparkling crockery and cutlery and prevents water spotting and streaking. Coupled with the use of hot water, it ensures very fast drying times. Manual drying is eliminated, thus reducing labour costs and also preventing cross-infection from the use of towels. EC14 is readily biodegradable and is an environmentally responsible choice for your cleaning needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC16 Crockery & Cutlery Soak

5KG 2002090

EC16 is highly effective Cutlery and Crockery soaking powder made from a powerful surfactant formula that breaks down the toughest food soils and removes stubborn stains on crockery and cutlery. Also suitable for use on stainless steel surfaces, plastics, china and as a laundry soak.

## EC19 Laundry Powder

5KG 2066620

EC19 is an environmentally responsible and highly effective laundry powder with a fresh citrus perfume. EC19 has a high performance and comprehensive formula that combines alkali builders, water conditioners, emulsifiers, enzymes and soil removing agents into one powder that is ideal for removing soils, fats and greases in both hot and cold water. EC19 is readily biodegradable and is an environmentally responsible choice for your laundry needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC20

### Laundry Liquid

3X5L 2066630

EC20 is powerful enough to remove stubborn soils in domestic and light industrial laundries but is gentle enough to be used on most fabrics. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC21

### Foaming Handwash Perfumed

6X1L BW 2073863

EC21 is creamy foam hand wash, tough on dirt and grime and ideal for all washrooms. Its pleasant fragrance leaves your hands smelling fresh and clean.

## EC23

### Foaming All Over Bodywash

6x1L 2073870

EC23 is an all over body wash and with its rich creamy formula and fresh fragrance it's a pleasure to use on skin and hair.

## EC25

### Cream Cleanser

3X5L 2035490

EC25 is designed to be used on most surfaces leaving them spotlessly clean and smelling lemony fresh. EC25 is readily biodegradable and is an environmentally responsible choice for all your cleaning needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC28

### Bath & Shower Cleaner

3x5L 2035500

EC28 is an environmentally responsible and superior strength Bath & Shower Cleaner that removes the toughest of grime and leaves behind the long-lasting fragrance of tropical vanilla freshness. EC28 utilises chlorine free formula, which is non-corrosive, making it perfect for all surfaces including plastic and it won't leave bleach stains on your clothing. EC28 is made from renewable plant resources rather than oil-based ingredients, is readily biodegradable and is an environmentally responsible choice for your cleaning needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC36

### Multi-Purpose Cleaner

3x5L 2035510

EC36 is an environmentally responsible and highly effective multipurpose cleaner and degreaser with a fresh lemon fragrance. Utilising a phosphate free formula, EC36 is non-flammable and mixes easily with water, making it economical and an effective cleaning solution for removing grease and built up scum on floors and walls. EC36 is made from renewable plant resources rather than oil-based ingredients, is readily biodegradable and is an environmentally responsible choice for your cleaning needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

## EC38

### Neutral Floor Cleaner

3x5L 2035520

EC38 is an environmentally responsible and highly effective neutral floor cleaner that is ideal for most floor types including vinyl, linoleum, timber, rubber and tiles. With its superior strength formula EC38 will take on the toughest of floors, leaving them spotlessly clean and smelling lemony fresh. Ideal for spray on & wipe off applications. EC38 is made from renewable plant resources rather than oil-based ingredients, is readily biodegradable and is an environmentally responsible choice for your cleaning needs. Always use the correct dose for maximum efficiency and minimum environmental impact.

# ECOMULTI DISPENSING SOLUTION

Jasol is proud to introduce the EcoMulti Chemical Dispensing system. The EcoMulti unit, in combination with a unique colour coded chemical system, makes the supply and delivery of chemicals, sinks and bottles a simple, safe and accurate process.

The dispenser itself is simple to operate, compact and neat.

- **EASY AND SAFE TO USE** - The EcoMulti dispenser allows for the dilution of up to four chemicals. Chemical selection is via an intuitive four-way dial on the front of the unit. Push button operation allows for filling of bottles while the locking capability ensures rapid filling of sinks for larger cleaning and sanitising applications.
- **ROBUST CONSTRUCTION** - The EcoMulti has a strong construction based on reinforced polypropylene, with EPDM internal seals.
- **EASY TO CHANGE CHEMICAL CONTAINERS** - The EcoMulti draws chemicals from 5 litre concentrate containers stored under benches. The larger containers mean fewer chemical container changeovers, while ensuring they are small enough to handle safely.
- **ACCURATE DILUTION** - The EcoMulti contains finely engineered components to ensure accurate dilution and delivery of chemical.
- **GREAT LOOK** - The EcoMulti is a compact and attractive unit. It fits in well with all backgrounds in food retail stores and the chemical lines connect neatly into the bottom of the unit to create a streamlined look.
- **COLOUR CODED CHEMICAL SYSTEM** - Jasol's unique system of colour coded chemicals, dispenser labels, chemical lines, line tags, container caps and container labels ensures complete continuity from container to application. This makes it easy to identify and connect the correct chemical for changeover, delivery and dispensing.

Ecomulti Dispensing Solution

“Our team loved the new Jasol dispensers. The look, practicality and functionality is excellent. The entire team have had nothing but great things to say about the new dispensers.

The most common feedback we have had is around how easy they are to use and monitor chemical usage. It's also really easy to manage the changeover of chemicals. I personally also believe they are a major step in the right direction for one of our important goals of making things better and easier for our team. Especially for new team members to identify the correct chemicals and ensure our cleaning standards are maintained and improved.”

Darcy Jarvis - Keysborough, Victoria

Easy and simple way to dispense chemicals

Screen Printed Spray Bottles to be used for diluted chemicals

Colour Coded Chemicals

## NEW TOUCH FREE & MANUAL LIQUID OR FOAM SOAP DISPENSERS

Jasol's wall mounted soap dispensers have 100% disposable inner mechanism to ensure full hygiene integrity. Both units have interchangeable pumps and soap pods that can be easily switched between products. Once the soap pods are placed in the unit they only need replacing when the container is empty. The chemical is never in contact with air or germs.

### Safe T Guard Alcohol-Free Foaming Hand Sanitiser

Safe T Guard is an alcohol and fragrance free foaming hand sanitiser that is kind to hands. It is specifically designed for frequent use applications such as at supermarket checkouts and provides an excellent finish, free of stickiness.

Safe T Guard is non-hazardous and non-DG, and due to its foaming properties uses less product per application and is therefore highly cost effective.

### EC6 Foaming Hand Wash

EC6 is an antibacterial foaming hand soap. It contains emollients and moisturiser to support healthy skin for frequently washed hands.

EC6 is non-hazardous and non-DG and is certified by GECA (Good Environmental Choice Australia).

Due to its foaming properties, EC6 uses less product per application and is therefore highly cost effective.

# JASOL HYGIENE AUDIT PROGRAM

Jasol implements a comprehensive Cleaning and Hygiene Audit Program to provide customers with an objective assessment of their hygiene and food safety practices. We have unparalleled expertise in the area and our hygiene audits deliver value through factual, non-biased reporting.

The features and benefits of this program include;

- A dedicated team of experienced Hygiene Technicians to deliver Jasol Hygiene Audits
- In the moment training on chemical and equipment use and sanitiser testing
- Full audit debriefs with management to highlight areas for improvement
- In depth data analysis and reporting to convey meaningful insights into recurring food safety and hygiene issues
- Collation and review of comprehensive quarterly state and national dashboards
- Recommendations for corrective actions aligned to the requirements of the Australian Food Safety Standards Guide
- iAuditor and Template Maintenance
- Expert input into template structure and question design

According to the Food Safety Information Council, Food poisoning results, on average, in 5.4 million cases a year (including 120 deaths), 1.2 million visits to doctors, 300,000 prescriptions for antibiotics, and 2.1 million days of lost work each year.

The estimated annual cost of food poisoning in Australia is \$1.25 billion. A large majority of these cases of foodborne illness are single, sporadic infections.

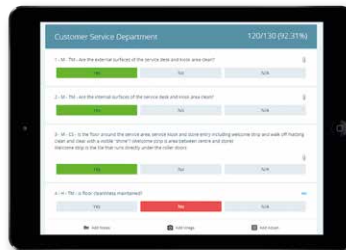

*Listeria Monocytogenes*, *Norovirus*, *E. Coli*, *Campylobacter* and *Salmonella* are the most common pathogens that cause food-borne illness in Australia.

"Food Safety Standards – Costs and Benefits" report estimates that foodborne disease costs Australians more than \$2.6 billion every year. In 1996-97, absenteeism due to food poisoning resulted in productivity losses of over \$370 million.

## ATP SWABBING

Our technicians use the latest technology in ATP swabbing to determine cleanliness by detecting any contaminants left behind from previously processed food and liquids.

### PRODUCT APPLICATION GUIDE

**Jasol**  
Hygiene First

• Use this information as a guide only – please refer to the SDS / Safety Data Sheet for detailed procedures  
 • Please refer to Chemical Labels and SDS files for the most up-to-date chemical directions and directions  
 • As a general guide for sanitisation, use the following guidelines:  
 1. CLEAN with detergent, water & sprayer 2. SANITISE with heat and/or water and/or chemicals 3. Allow to AIR DRY

JASOL PRODUCT NAME	PRODUCT DESCRIPTION	USE / IMAGE	DIRECTIONS / HOW TO	HAZARDOUS	POISON SCHEDULE	PPE
ALCODIS	READY TO USE ALCOHOL BASED ISOBUTYL SANITISER		Spray undiluted. Ensure the surface are thoroughly drained and any product residues are removed from the surface before contact with food products.	NOT CLASSIFIED AS HAZARDOUS	NOT SCHEDULED	None
